## User Manual

### Sport Stereo Bluetooth Headphone

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FCC ID:2ALVB-S5001

Thank you for purchasing the HARMONY S5001 Sport Stereo Bluetooth Headphone. Please read this user manual carefully and keep it for future reference. If you need any assistance, please contact our support team with your product model number.

Chipset	CSR8645
Frequency Range	20-20KHz
Microphone Sensitivity	-42dB ±3dB
Input	DC 5V
Charging Time	2 hours
Play Time	5+ hours
Talk Time	5+ hours
Battery	120mAh Li-Polymer
Operating Range	Up to 10m / 33ft
Weight	17g / 0.59oz

- 01 -

- If your paired device is turned off or manually disconnected, the earbuds will flash blue twice every 5 seconds and shut down after 5 minutes.
- The maximum wireless operating range is 33ft (10m). If you exceed this range, the earbuds will disconnect from your paired devices and you will hear a tone. The connection will be re-established once you re-enter the wireless range within 5 minutes. The earbuds will automatically reconnect to the last-paired device. To connect with other devices, please repeat the previous "Pairing" steps.

#### Music and Calls Control

##### Making Calls

Once paired with your smartphone, making and answering phone calls can be managed via the in-line remote.

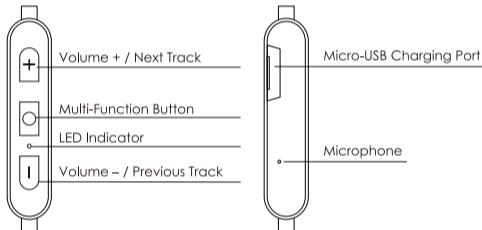

Answer / End a call	Press the multi-function button once
Redial last-called number	Double-press the multi-function button in standby mode
Reject an incoming call	Press and hold the multi-function button for 2 seconds
Mute / Resume a call	Press volume + and volume - simultaneously
Voice switch	Press and hold the multi-function button for more than 1 second during a call to switch between the earbuds and your phone for talking
Device switch	Double press the multi-function button during a call to switch between two mobile phones

##### Streaming Audio

Once paired, you can wirelessly stream audio from your device to your earbuds. Music will automatically pause when you receive an incoming phone call, and resume once the call has ended.

#### Product Diagram

#### Getting Started

##### Charging

Fully charge your earbuds before first use. Before charging, make sure the earbuds are turned off. To charge, simply connect one end of the micro-USB cable to a USB charging port and the other end to the input port on the earbuds. When the red LED indicator light turns blue, your earbuds are fully charged and ready for use. Charging takes around 2 hours.

- 02 -

#### Turning On/Off

Turn On	Press and hold the multi-function button for 2 seconds until the LED indicator flashes blue, and you will hear a "power on" voice notification
Turn Off	Press and hold the multi-function button for 4 seconds until the LED indicator flashes red, and you will hear a "power off" voice notification

#### Pairing

Starting with your earbuds powered off:

- Press and hold the multi-function button until the LED flashes blue and red alternately
- Turn on the pairing function of the device you want to pair with the earbuds
- In the list of available devices, find and select "
- If a code or pin is required for pairing, please enter "0000"

#### Simultaneous Pairing with Two Devices

- Follow the instructions in the "Pairing" section to pair the earbuds with Device A
- Once paired, disable wireless function on Device A and turn off the earbuds
- Follow the instructions in the "Pairing" section to pair with Device B
- Once paired with Device B, reactivate wireless function on Device A and select "HLM-S5001" in the list of paired devices
- You can now make and receive calls from either of the two paired devices

#### Notes

- To reset the earbuds, power on the earbuds and then hold volume - and multi-function button simultaneously until the LED indicator lights up red & blue for a second. Once the pairing list is cleared, you will hear a tone; and when you turn on the earbuds next time, the earbuds will automatically enter into pairing mode
- The earbuds will automatically shut down after 5 minutes in pairing mode if no devices are paired

Play / Pause	Press the multi-function button once
Volume control	Press volume + / -
Next / Previous track	Press and hold the volume + / - for 1 second

LED Indicator	Status
Blue & red flashing alternately	Pairing mode
Blue flashing once every 10 seconds	Connected / Playing music
Blue flashing twice every 5 seconds	Disconnected
Blue flashing once every 3 seconds	In call
Blue flashing rapidly	Incoming call
As above with red instead of blue	Low battery
Red	Charging
Blue (after charging)	Fully charged

#### FAQ

##### The earbuds are on, but not connecting with my device

To connect the earbuds with your device, you need to enter pairing mode. Follow the instructions in the "Pairing" section of this manual.

##### I have established a connection with my smartphone but can't hear any sound

Double-check the volume level on your smartphone and the earbuds. Some smartphones require you to set up the earbuds as an audio output device before the audio can be transmitted. If you are using a music player or other device, please make sure it supports the A2DP stereo music profile.

**The sound is not very clear or the caller cannot hear my voice clearly**  
Adjust the volume on your smartphone and the earbuds. Try getting closer to your

smartphone to rule out the possibility of interference or wireless range-related issues.

##### Can I use the earbuds while they are charging?

No.

##### What is the wireless range of the earbuds?

The maximum range is 33ft (10m). However, the actual range will depend on environmental factors. For optimal performance, keep your devices connected with the earbuds within a 15ft-25ft range and make sure that there are no major obstacles (like reinforced steel walls) between the earbuds and your devices.

##### My earbuds won't turn on

Try charging the earbuds for a while. If the earbuds still won't power on, please contact our support team at the address below.

##### Product Care & Use

- Please keep away from liquids and extreme heat
- Do not use headphones at high volume for extended periods, as this may cause permanent hearing damage or loss
